

RE:

This week the Children learned about 'The Resurrection'. We focused on how Resurrection gives us 'New Life' and how the cross is a symbol of this. We created different cross craft.

Literacy:

This week we have been learning about 'New Life' and in particular we have focused on baby chicks. We read 'Dora's Eggs' and 'Daisy and the egg'. We learnt about a chick's life cycle and also about a frog's life cycle.

Maths:

This week we learnt about balancing using weighing scales. We had to scoop chick feed into the scales to make them balance. We also learnt about height, measuring different sized sun flowers by stacking up interlocking-cubes and counting them.

We used words like: heavy, light, balanced, big, small, tall, short, heavier, lighter, taller, smaller, heaviest etc..

Phonics and Home Learning:

This week we have started to learn Phase 2 phonics. We have focused on 'S' this week. We now know it's name and the sound it makes (ssss like a snake). The home learning is all about the 'S' sound and will be uploaded onto Teams. Please EITHER hand in next week OR hand in a photo of your child's work on Teams. This week's optional 5 Ways to Wellbeing Challenge is attached to this update.

Next week:

You may wish to discuss what we will be learning next week with your child this weekend, and/or read or watch our focus book. We will be reading 'The Very Hungry Caterpillar' and learning about a caterpillar's life cycle. We will be learning about how a Butterfly is symmetrical.

Other information and important reminders:

- Today you should hear about your child's Reception allocation. For children who will be attending our Reception, I will be in touch in May with information about which class they will be going into and transition information.
- We have noticed that some children have juice in their water bottles. Please make sure they only have water.
- Thank you to those who have handed in their Proud Cloud. If you haven't already, please do.
- We will be taking part in the Sir Captain Tom Moore 100 Charity Day on April 30th—more details to follow.

Have a lovely weekend! Katy, Alessia and Diana

5 Ways to Wellbeing Weekly Challenge 2

This week we will be focusing on
'Take Notice' and **'Be Active'**.

This week in school we have been celebrating 'New Life'. At this time of year evidence of 'New Life' is all around us; spring flowers are growing, blossom trees are blooming and baby animals can be seen in the fields.

This week we would like you to go on a Nature Walk to see if you can find any signs of 'New Life'. You do not have to produce any work for this challenge unless you would like to. You could paint or draw what you see, write a poem or take photos. Your teacher would love to see any work you produce.
