Year 1 Update

Dear Parents,

RE

This week we have been learning about Pentecost People. We have focused on St Peter and St Paul looking at their lives before and after the gift of The Holy Spirit was given to them. This will help the children to recognise how people act because they have faith.

English

We have continued working on 'Where's my Teddy?' by Jez Alborough. We have written about our own teddies and written our own version of part of the story.

Maths

This week in maths we have been carrying out some informal assessments in order to ascertain what parts of the Maths curriculum need to be revisited due to lockdown.

General information

As it is now the summer term the children should be wearing their summer uniform.

Well done for your participation in Number day! The children had a great day taking part in some super fun activities all put together by Megan, our KS1 Maths coordinator, we are very grateful for all her hard work!

If you are travelling to school in a car, please consider the local residents during the school run. We have had some complaints recently about people's parking near to or around the front gates. Morrison's car park can be used and

this would really help to ease the traffic around the estate in the mornings and afternoons.

Please see below for information for this week's Wellbeing Challenge.

God Bless

Ann and Frankie

5 Ways to Wellbeing

Weekly Challenge 5

This week we will be focusing on
'Keep Learning' & 'Connect'.

Today the children took part in many different maths-based activities and games. We would like you to spend some quality family time together this weekend by letting your child become the teacher and teach you one of the games they played!

You could also play some family friendly board games and card games like snakes and ladders, dominoes, snap and go fish!
