

Friday 9th July 2021

Year 1 Update

Dear Parents,

RE

This week we have continued our Neighbours topic learning about Marie-Doriane who is 8 years old and lives in a village called Gasala in Rwanda. Rwanda is in Africa.

Next week we shall be talking about how we can be a good neighbour both near and far.

English

This week we have compared and contrasted the two books we have been studying, 'The Three Snow Bears' and 'Goldilocks and the Three Bears'. We discussed the different settings and characters and the things that are the same in each book.

Maths

This week we have been looking at the properties of 2D shapes using the mathematical language of edges, corners, straight and curved.

Next week we shall looking at the properties of 3D shapes.

General information

Well done to all the children on Tuesday. Their behaviour was exceptional on our school trip to Bekonscot. We had a lovely time walking around looking at all the different models including a horse racing track, harbour and fun fair. We had a workshop comparing old and new toys and we all got to have a ride on the train.

No homework or spellings this week as it's been a tiring week with the trip and the football.

The Trim Trail is not to be used by the children before or after school.

A reminder that at St Anthony's the children wear red socks only.

Please return all signed report slips by Friday 16th July.

Please could all children bring in a labelled carrier bag next week to take home any items not required at school.

Please see below for information for this week's Wellbeing Challenge

God Bless

Ann and Frankie
