

### Year 3 Padua Update 7.5.21

In RE this week the children have used their Bibles to read from the Acts of the Apostles. They know that immediately after receiving the gifts of the Holy Spirit, the disciples were moved to go and talk about Jesus. Since that day, people who believe in God have continued to live differently. They have lived remembering what Jesus taught and what he showed in his own life. We call these Pentecost people. As a class, the children have discussed the qualities of a Pentecost person and have identified and described a Pentecost person that they know. Next week, they will be learning about why St Peter and St Paul are examples of Pentecost people.

In English we have started to learn about fables written as playscripts and their features. Next week we are going to continue performing to each other using the success criteria the children decide on as to what makes a good play and then we will write a review of a familiar fable.

In Maths, we have revisited prior learning with the children and they have completed some assessment tasks to identify areas of strength and highlight any gaps in learning, which will be an area of focus for the rest of the year. The children had a fantastic day today completing a fun range of activities for Number day. We would like to say a very big thank you to Megan for organising such a fantastic day for the children.

In Science next week, the children will be learning about how water is transported in plants.

#### Homework

Please see Teams for this week's homework task.

#### Messages and diary dates

- A reminder that multi skills after school on Tuesday is now finished.
- Please remember to ensure that your child has all correct items of uniform clearly labelled with their names on. The children should all have red socks, proper grey school trousers (no stretchy leggings) and no earrings.
- If your child is attending booster sessions, they can bring a healthy snack to eat during their break before the session begins. Please be prompt at pick up time.
- Please remember to be courteous to local residents when parking near to school.

## *5 Ways to Wellbeing*

### *Weekly Challenge 5*

*This week we will be focusing on*

*'Keep Learning' and 'Connect'.*

*Today the children took part in many different maths-based activities and games. We would like you to spend some quality family time together this weekend by letting your child become the teacher and teach you one of the games they played!*

*You could also play some family friendly board games and card games like snakes and ladders, dominoes, snap and go fish!*

*Have a lovely weekend*

*See you all on Monday,*

*Corinne ☺*
