

## Year 3 Lisbon Update 28.1.22

In RE this week, the children have been introduced to The Liturgical Calendar. They know that the Liturgical Year is made up of different seasons, events and feast days. The children coloured and labelled their Liturgical calendar and showed a very good understanding of The Liturgical Year. Next week, we will be exploring some of the different seasons of the Church's year in more detail.

In English, the children have written a set of instructions for 'How to wash a woolly mammoth'. They have worked very hard, applying their knowledge of the key features of instructions to their work. We have added lots of this written work to our class display in the school hall. Next week, they will be learning about instructions using directions.

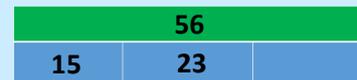

In Maths, the children have applied their knowledge of addition and subtraction to complete different worded problems using the bar model. For each question, they have thought carefully about what they know and what they are trying to find out. They have learnt that if they are trying to calculate the whole, they need to add the parts together. However, if they are trying to calculate a missing part, they need to subtract. Please see some examples below.

For this question, we are trying to calculate a missing part. So we subtract the part we know (63) from the whole (84)

The missing part is 21

There are some men, 15 women and 23 children going to the zoo.  
56 people are going altogether. How many men are going?

This is a multi step question. To work out the missing part, we need to firstly add the 2 parts that we know together.  $15+23=38$ . Now we subtract 38 from 56 to find the missing part. The missing part is 18

### Spelling

This week the children have learnt about using the apostrophe for contraction.

### Outdoor Games update

The children in year 3 will now be taking part in tennis lessons every Thursday morning, which will be run by a tennis club. These classes will alternate on a weekly basis between the two Year 3 classes. On the week that we have tennis, we will not have outdoor games on a Friday. However, on the week we don't have tennis we will have outdoor games on a Friday. This will take place for the rest of the year. Please make sure your child has the correct outdoor shoes in school on the following days for the rest of the term. The children will also need a pair of grey tracksuit bottoms for outdoor games in the cold weather. Thank you to those of you who have sent these into school.

#### Tennis dates for this term- Y3L

Thursday 3<sup>rd</sup> February

Thursday 24<sup>th</sup> February

Thursday 10<sup>th</sup> March

Thursday 24<sup>th</sup> March

## Homework

The children have been given a Maths activity to complete on solving addition and subtraction problems using the bar model. We have completed lots of these questions in class this week, so the children should be very familiar with how to complete these.

It was great to see so many children apply for the role of sports councillor. They shared lots of wonderful speeches in class and each child then voted for who they would like to choose. This week, I have sent out an application for **school councillor**. If your child is interested in representing their class as school councillor, they will need to fill out the sheet, or perhaps prepare a short speech about why they would like to be a school councillor. This needs to be returned to school by **Tuesday**.

## Messages

- As the weather is now getting colder, can you please ensure that your child has a pair of **light grey jogging bottoms** for outdoor games in their PE kit. Please label these with your child's name.
- A reminder to please ensure that if your child has a pen licence, that they will need spare cartridges and ink erasers in school
- A reminder that **no earrings** should be worn in school and long hair needs to be tied up.

Thank you,  
Have a great weekend,  
Laura 😊
