

R.E

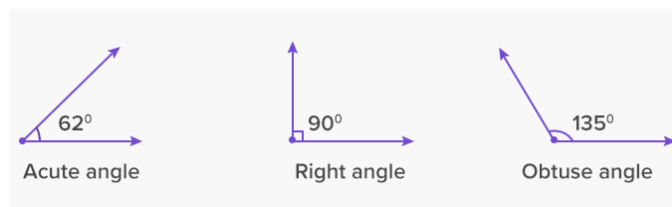

In RE this week we have been thinking about our local Parish community and have researched information about our local Parish. We have also learnt about the roles of the different people in our Parish. = and we have thought about the qualities you would need to be a priest.

English

In English this week we have been using our research from last week to finish writing our non-chronological reports. We have been writing this in sections and then editing our work as we write. We have been thinking about how to make our sentences interesting considering our word choices. Next week we will write up our reports in neat for display in the classroom and we will begin to learn about play scripts.

Maths

In maths this week we have been learning about different 2D shapes, such as quadrilaterals and triangles. We have been sorting shapes and have also investigated symmetry. We also learnt about different types of angles for example acute angles, obtuse angles and right angles.

Next week we will be learning about how to find the perimeter of a shape.

Science

This week in science we have been writing up our findings from our science experiment last week where we made a digestive system. We wrote about the different stages and what happens to our food as it passes through our bodies. We have also been learning about the different types of teeth humans have and their functions. Next week we will be learning about animal teeth and will set up experiment to investigate the effects of different drinks on our teeth. Our home learning this week will be based on our science topic.

Get Ahead!

Please research the recipe for scones ready to make your scones next week.

Homework

Spellings – due in Thursday 3rd February

Science – Due in Tuesday 1st February

Maths – Due in Tuesday 1st February

Extra information

- Unfortunately the KS2 discos have had to be postponed for now.
- School will finish at 2:30pm on the 11th February and we will break up for half term.

Well-being challenge

Please see the 'Big Garden Birdwatch' email you received this week. This is our well-being challenge for this week.

Have a good weekend from Abbie, Sarah & the Year 4 Team.
